DEPARTMENT OF DEFENSE

**SMALL BUSINESS and LABOR
SURPLUS AREA SPECIALISTS**

designated to assist the businessman

OFFICE OF ASSISTANT SECRETARY OF DEFENSE
INSTALLATIONS & LOGISTICS
WASHINGTON, D.C. 20301

FOREWARD

It is a paramount objective of the Department of Defense to acquire weapons and material which fully meet qualitative, quantitative, and delivery requirements -- at the lowest over-all cost. To achieve this objective, maximum emphasis is placed on full and free competition, with equal opportunity to all interested qualified suppliers to compete for Defense contracts.

Department of Defense Procurement Offices are located in many major cities in the United States. Small business specialists at each of these offices are available to assist businessmen in obtaining information and guidance on -- Defense procurement procedures -- how to be placed on the bidder's mailing list -- and identification of both prime and subcontract opportunities.

The location of Army, Navy, Air Force, and Defense Supply Agency procurement and contract administration offices and the names of the small business specialists are listed in this pamphlet by state, alphabetically.

Some of the procurement offices listed in this pamphlet purchase only those supplies and services that are required to meet local needs. Others have the broader assignment of central procurement responsibility for particular commodity requirements of one or more of the military departments on a national or global basis.

THE DOD BASIC PROGRAMS FOR SMALL BUSINESS AND LABOR SURPLUS AREA CONCERNS

In the conduct of the national and defense policies for both small business and labor surplus areas, the DoD has developed six basic programs utilized in Army, Navy, Air Force, and Defense Supply Agency as follows:

1. Prime Contractor Source Development and Utilization. Here there is developing, listing, screening for IFB (bid) action and RFP (proposal) action, and thereafter utilizing the developed small business and labor surplus area sources. This source development generates our "prime" contracting program for small business and labor surplus

areas. We are assisted by the Small Business Administration through effective programs of that agency for referrals, surveys for certificates of competency and credit, loan programs, and the like. The Department of Commerce, through its Commerce Business Daily, which synopsisizes procurement invitations, subcontracting leads, contract awards and other business opportunities, is also of great help to us.

2. Small Business and Labor Surplus Preference Activities -- under which "partial" and "total" set-asides, as authorized by law, are used for small business concerns; and "partial" set-asides as provided for in DMP #4 are used for labor surplus area concerns. This "set-aside" action is carried on by our procurement officers in the Army, Navy, Air Force, and Defense Supply Agency.

3. Subcontracting Procedures and Practices -- with our prime contractors to insure that small business concerns and labor surplus area concerns are utilized in subcontracting. These consist of special clauses for utilization in prime contracts, assistance in establishment of contractor and subcontractor source referral and other programs, requirements for maintenance of records of activity; prime contractor workshops, plant visits to major prime contractors; liaison activities with the Small Business Administration, source referrals; and other like action.

4. Small Business and Labor Surplus Area Procurement Clinics. These are held on a DoD-wide, on a service (Army, Navy, Air Force, Defense Supply Agency), and on procurement office basis to acquaint small business and labor surplus area concerns on the federal contract process. This action is by presentations, discussions, films, suitcase-type exhibits, and pass-out materials.

In these clinics, the DoD service representatives have available current IFB's and RFP's so that interested industry and science representatives can actually participate in current prime and subcontract business. DoD is joined in these clinics by representatives of our major contractors located in the geographical area of the clinic; by other procurement agencies including the National Aeronautics and Space Administration, General Services Administration, Atomic Energy Commission, and the Veterans Administration, and by other government service agencies, including the Departments of Commerce and Labor and the Small Business Administration. This program also includes similar activities such as counseling at DoD/Industry-wide briefings; at Service R&D procurement meetings; at state and local community industrial fairs.

5. Counsel and Assistance. This action involves maintenance of bid rooms, or lists of "buy items", advanced planning lists, interpretations, financing, facilities assistance, introduction of potential contractors to the pertinent "buy" agency, checking of delivery schedules, furnishing of informative data, and assistance on securing of specifications and drawings. The Small Business and Economic Utilization Directorate acts as the DoD central procurement information office. The counsel and assistance action is at headquarters in DoD, at the Army, Navy, Air Force, and Defense Supply Agency Secretariat; at the Command Bureau levels; and at the service field procurement offices.

6. Special Projects -- in which our small business, labor surplus area, and economic utilization expertise is of assistance. This would include participation in activities such as the President's Committee for the Rehabilitation of the Handicapped, assisting on DoD legislative and other hearings and studies; participation on the DIAC working committees; assistance on training programs for small business and economic utilization personnel; and advanced Industry Briefings, and work on economic studies.

SELLING TO THE MILITARY

The major military procurement offices and the products and services they purchase are set forth in the pamphlet "SELLING TO THE MILITARY." This pamphlet may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 -- Price - 30 cents. Also, types of products or services each procurement office may purchase in the future are indicated by their listing of requirements in the "COMMERCE BUSINESS DAILY."

COMMERCE BUSINESS DAILY

The "COMMERCE BUSINESS DAILY" is a valuable source of information to businessmen in identifying products and services which individual military procurement offices currently plan to buy. The publication also lists proposed procurements of other federal agencies; subcontract opportunities offered by Defense prime contractors; recent contract awards, which, in turn, provide "leads" to additional subcontract opportunities; surplus sales information; and, other pertinent information on federal procurement activities.

The "COMMERCE BUSINESS DAILY" is published Monday through

Friday and may be purchased on annual subscription for \$15.00 by regular mail or \$57.00 for an air mail edition. Checks or money orders should be made payable to the Superintendent of Documents and mailed to:

Superintendent of Documents
Commerce Business Daily
Government Printing Office
Washington, D. C. 20402

BIDDERS MAILING LISTS

A business firm seeking to participate in Defense procurement should inform military procurement offices of products or services it has to offer and request that the firm be placed on appropriate bidders' mailing lists. Copies of Standard Form 129, "Bidder's Mailing List Application," are available at most federal agency procurement offices.

Each procurement office maintains lists of firms that are capable of supplying products or services purchased by the office. Firms on the bidder's list are supplied "Invitations for Bid" or "Requests for Proposals" on new procurements.

Normally, the submission of Standard Form 129, "Bidder's Mailing List Application" -- with complete and exact information about the products or services on which a firm wishes to bid -- is sufficient to secure placement on a procurement office bidder's list. However, in some cases, procurement offices may require that additional information be supplied.

Submission of Standard Form 129 results only in the prospective bidder being placed on the bidder's mailing list of the procurement office to which the form is submitted.

ADDITIONAL SOURCES OF INFORMATION

The Small Business Administration, General Services Administration, and the Department of Commerce also have field offices in many cities which are equipped to assist business firms in locating opportunities to participate in military procurement.

Local Defense activities listed in this pamphlet and field offices of other Federal agencies should be the initial contact for assistance and guidance on how business firms can participate in Defense work.

Individuals visiting the Washington, D. C. area who seek assistance in federal procurement procedures may contact the offices listed below. These offices do not let contracts, but are available only for the purpose of providing information and guidance.

DoD Directorate for Small Business
and Economic Utilization Policy
Office, Assistant Secretary of Defense
